SAJMIYA S

Backend Developer | Python | Django

Kerala, India | +91-9495418846 | sajmiyasalim@gmail.com
LinkedIn: linkedin.com/in/sajmiya | GitHub: github.com/Sajmiya-S

PROFESSIONAL SUMMARY

Backend Developer experienced in designing and deploying production-ready Django applications using PostgreSQL. Built and launched a live ERP system for solar business operations, covering CRM, finance, procurement, and workforce management with role-based access control. Skilled in RESTful API development, authentication systems, database design, and scalable backend architecture. Proficient in Git workflows, database migrations, and production deployment (WSGI, static/media handling). Certified in AI-Driven Python Programming.

TECHNICAL SKILLS

Languages: Python, Java, C, C++
Frameworks: Django | Frontend: Bootstrap
Databases: PostgreSQL, MySQL, SQLite
Tools: Git, GitHub, Postman, VS Code, PythonAnywhere
Concepts: RESTful APIs, ORM, MVC Architecture, RBAC, Authentication & Authorization, OOP, Debugging, Deployment

PROJECTS

Zyphora Solar – Live Business Operating System (ERP)
GitHub: Zyphora Solar Repo | Live: Zyphora Solar Website
• Designed and deployed a production-ready ERP system for solar business operations
• Implemented RBAC for 6+ roles with integrated CRM workflows
• Developed modules for finance, procurement, employee management, and project tracking
• Automated task assignments, follow-ups, and notifications to streamline operations

FarmFresh – Production Deployed Django E-Commerce Application
GitHub: FarmFresh Repo | Live: FarmFresh Website
• Developed and deployed a Django e-commerce platform with PostgreSQL, authentication, cart, order workflows, and payment integration

Employment Management System – Python CLI Application
GitHub: github.com/Sajmiya-S/employee-management-system-miniproject
• Built CLI-based HR system using Python and SQLite with CRUD operations for employee, attendance, and payroll

EDUCATION

B.Tech in Computer Science and Engineering
Government Engineering College, Palakkad | 2010 – 2014

AI Driven Python Programming
Entri Elevate – Illinois Institute of Technology (Illinois Tech) | Skill India – NSDC

WORKSHOPS

- Human 2.0 Soft Skills Workshop – Entri HQ, Kochi
- Python Programming Workshop – Entri HQ, Kochi
